ABOUT ME

Software engineer for more than 4 years, experienced with 30+ projects, different techs, exempt from military service.

JOB EXPERIENCE

Software Engineer

Zamin

📅 Jun 2021 – Ongoing 📍 Isfahan, Iran

- Back-end developer
- Active collaborator within scrum team
- Balonet is a business communication platform created by Zamin company. Working in an agile team and JVM stack in a company with 25 software engineers is a great opportunity for me.

Kotlin   Spring   Spring-boot   Akka actors   MongoDb

Software engineer

Tejart Gostar Farasoo Company

📅 Feb 2021 – Jun 2021 📍 Isfahan, Iran

- Back-end developer
- Working in a traditional company in terms of waterfall processes and management with stable business and customers and maintaining legacy codes was an achievement for me to know more about my personality and old-fashioned businesses.

PHP   MySQL   Docker   MongoDB

Co-founder & Head of Software engineering

Scarlett

📅 Mar 2020 – Mar 2021 📍 Isfahan, Iran

- Co-founder of an entertainment industry startup, focused on movie recommendation and social network, the team members changed several times but startup survived but needs fundraiser. Team creation and management, plus business concerns and state-of-the-art technologies are my achievements from this experience.

Django   machine learning   scikit-learn   elasticsearch
